52 Supercars 2019

16-22 October

Superdeportivos Cantabria is the biggest Supercar event in Spain every year and we have been going for years. In 2019 the organisers are planning an end of season event limited to just 52 cars. We already know that the GTA Spano and a full house Maserati will be there and we already have interest from UK Owners with a TVR Sagaris, Ferrari Pista and Ford GT40
What's the schedule? There will be drive outs into the hills of Cantabria and the Picos de Europa There will be lunches and dinners with exceptional food and great wines. There will be the camaraderie of a group all committed to fun. In October the weather is usually still set fair (unlike the UK). The SDC Organisers pride themselves on excellence—this will be good
